Welcome to CampoelValle Our Centre of Rural Tourism CampoelValle is located in Hacinas, a village from Burgos with an enviable historical and natural environment, plenty of ancestral traditions, beautiful untouched landscapes, a unique architecture and even 120 million year-old forests of fossil trees. Everything in order to make of it, a place unique, where one can see the time passing or walk with it. Can anyone fail to fall under the charm of a house like that? Centre of Rural Tourism CampoelValle CampoelValle is a house recently built (2006) which combines the wisest of traditions with the latest technology of comfort. Looking through its windows means opening one's eyes to nature. Beautiful stone walls, warm wooden ceilings and several chimneys where one can watch the logs burning slowly, combined with the musical atmosphere in every room, the floor heating, the automatic blinds and the exquisite decoration, to create what we haven't doubted to call Rural Luxury. Currently 5 double rooms are available in the house with the possibility of extra beds, a triple room, all of them with a television, a bathroom and Internet connection. You'll be able to enjoy together its large lounge, its terrace and the garden.

Lounge of the House A large, comfortable lounge to rest, read a book or just get warm by the fire-place. It combines its stonewalls with delicate colours in stucco and double height ceiling which makes you look at the sky and let your imagination fly. Its large windows and balcony look at CampoelValle, a natural spot which gives name to the house.

The Main Suite The main suite is a place with a very special architectonic charm. Its walls, which remind of a renaissance-like sky, its refined bed with a canopy, its window balcony looking at the landscape of CampoelValle, its warm chimney, its large private bathroom and its decoration, will turn your stay into a dream.

Chocolate Room In the chocolate room you'll be able to live the sweet harmony of its warm colours, discreetly mixed with its elegant furniture. Genuine, bright and quiet, this room is the ideal place to live wonderful moments.

Pistachio Room (triple) The curious mixture of colours in this room makes it incredibly cheerful and smart. It's especially aimed at children or teenager guests, or if you just want to smile when coming in. It's got a large private bathroom. Its rustic furniture, beautifully carved will turn your stay into something to be remembered.

Blue Room This fresh, cosy, comfortable room offers wonderful views to the village of Hacinas. There is a private bathroom, conveniently integrated in the room. Its high, attic wooden ceiling and its charming decoration make of it the ideal place to spend really grateful moments. There is a TV, piped music and internet connection in every room.

Green Room A genuine corridor of double height leads to this room with a wall delicately decorated in green stucco, harmoniously contrasting with its two ancient iron beds recently restored, family heritage. Its attic wooden ceiling, its genuine bathroom integrated in the room and its beautiful views to the village give this place a very special charm.

Adapted Room This room placed on the ground-floor, with a private door, near the dining-room and the garden is specially designed for handicapped guests, although anybody would love to enjoy a space like this.

Dining Room The large, comfortable dining-room of CampoelValle is a cosy place where one can taste the most delicious local dishes, prepared in our own kitchen, and then enjoy a cheerful conversation after lunch or watch TV before going out to the terrace or going for a walk in the village.

Terrace The terrace balcony is the eyes of the house. From up there you'll be able to enjoy the beautiful natural landscape of CampoelValle and the majestic rock of Villanueva, while you relax from a hard day picking up mushrooms, trekking the country or going on the routes proposed by us.

Garden In the garden of CampoelValle one can breathe the fresh air of the mountains, sunbathe if the weather is good, or else, go out to think or relax while watching the full moon and the thousands of stars hidden to the cities.
