In Descargamarã-a, small villa of the Mountain Chain Gata, it has been rebuilt with care, a house in the main square, to adapt it as country apartments. This country lodging, of 3 starts, was built in 1773 and fully renewed in 2001, when it was opened. La Boticaria can be rented during the whole year and it has a surface of 110 m2. It has a building of traditional architecture that it is well-kept. Both inside as outside, the popular architecture has been kept. We have 4 rooms (2 studies and 2 apartments), all of them have full kitchen, TV, central heating and bathroom. Your stay in our apartments will be more than comfortable, cozy and the most important thing: in the middle of a landscape that invites you to rest. At La Boticaria you can rent bikes and get information about hiking and trekking routes.
