It is located in the nature surrounded by old terraces of farming, vine and olive, Cal Benet is a cottahe of the first middle of the XVIII century, fully rebuilt in the 2007, where the agrarian activity continues with the farming of the fields and the breeding of calves. The fact it is located by horse of three regions (Solsonés, Berguedá and Bages) offers us an excellent start point to start visits to the natural heritage or cultural of any of these regions. Its location in the South-West of the Serrat del Batlle, or to the parish of Sant Feliu de Lluelles, makes that is an ideal place for enjoying the sunshine, as well as a privileged panoramic view of part of Central Catalanian.
