In the picturesque villa of Sepúlveda, at the beginning of the Natural Park Hoces del Duratón, we have created a nice place where you can rest. It has 10 double bedrooms and 2 triple. All of them are with bathroom, central heating, TV and stereo. At the beginning of Hoces del Duratón we have created a space to rest, an environment where you can taste and share the most noble food prepared as traditional recipes: the roast lamb and piglet in our firewood oven, the hunting dishes, the fishes from the North, a little bit of slaughter or the legumes and the vegetables. Our restaurant with firewood oven and the living room with French fireplace, prepared for business meetings, are very comfortable because both are conditioned. The game room and a big outside terrace fulfil the facilities.
