First of all, we introduce ourselves, we are Elena and Ismael, and we manage the rustic Hotel Casa do Vento. A Casa do Vento is a small rural hotel, is the result of the rehabilitation of the house of our grandparents. It is built 1892 and dedicated from then and to the year 2000 to the selling of groceries, hardware, drug, in general you could find almost everything. In the year 2000 we start with the rehabilitation which lasted two years, in two years we provide our house of seven bedrooms and a suite, all of them with bathroom, television, telephone and heating. Besides the bedrooms we have a living room and a wine cellar for the use of our customers, outside we have a porch, a garden area, the park car is outside the enclosure. From 2009 we have the option to rent the full house, for that we provide a kitchen for our customers.
